of the United States: I transmit to the House of Representatives, in an-

by the resolution. as I was to act under the treaty of Guadalupe Hidal- gard and affection of the people for each other. go without the aid of any legislative provision in establishing a government in that Territory, I thought it best not to disturb that arrangement, made under my predecessor, until Congress should take some action on that subject. I therefore did not interfere with the powers of the military commandant, who continued to exercise the functions of civil governor as before, but I made no such appointment, conferred no such authority, and have allowed no increased compensation to the commandant for his services.

With a view to the faithful execution of the treaty, so far as lay in the power of the Executive, and to enable Congress to act at the present session with as full knowledge and as little difficulty as possible on all matters of interest in these Territories, I sent the Hon. Thomas Butler King, as bearer of despatches to California, and certain officers to California and New Mexice, whose duties are particularly defined in the accompanying letters of instruction addressed to them severally by the proper department.

I did not hesitate to express to the people of those Territories my desire that each Territory should, if prepared to comply with the requisitions of the Constitution of the United States, form a plan of a State Constitution, and submit the same to Congress, with a prayer for admission into the Union as a State; but I did not anticipate, suggest, or authorize the establishment of any such government without the assent of Congress; nor did I authorize any government agent or officer to interfere with, or exercise any influence or control over the election of delegates, or over any convention, in making or modifying their domestic institutions, or any of the provisions of their proposed constitution. On the contrary, the instructions given by my orders were, that all measures of domestic policy adopted by the people of California, must originate solely with themselves; that while the Executive of the United States was desirous to protect them in the formation of any government republican in its character, to be at the proper time submitted to Congress, yet it was to be distinctly understood that the plan of such a government must at the same time be the result of their own deliberate choice, and originate with themselves, without the interference of the Executive.

I am unable to give any information as to laws passed by the supposed government in California, or of any census taken in either of the Territories mentioned in the resolution, as I have no information on

those subjects. As already stated, I have not disturbed the arrangements which I found had existed under my predecessor.

In advising an early application by the people of these Territories for admission as States, I was actuated principally by an earnest desire to afford to the wisdom and patriotism of Congress the opportunity of avoiding occasions of bitter and angry dissensions among the people of the United States.

Under the Constitution every State has the right of establishing, and from time to time altering, its municipal laws and domestic institutions, independently of every other State and of the General Government, subject only to the prohibitions and guarantees expressly set forth in the Constitution of the United States. The subjects thus left exclusively to the respective States were not designed or expected to become topics of national agitation. Still, as under the Constitution Congress has power to make all needful rules and regulations respecting the Territories of the United States, every new acquisition of Territory has led to discussions on the question whother the system of involuntary servitude which prevails in many of the States should, or should not be prohibited in that Territory. The periods of excitement from this cause which have heretofore occurred have been safely passed, but during the interval of whatever length which may elapse before the admission of the Territories ceded by Mexico as States, it appears probable that similar excitement will pre-

Under these circumstances I thought, and still think, that it was my duty to endeavor to put it in the power of Congress, by the admission of California and New Mexico as States, to remove all occasion for the unnecessary agitation of the public mind.

It is understood that the people of the western part of California have formed a plan of a State Constitution, and will soon submit the same to the judgment of Congress, and apply for admission as a State .-This course on their part, though in accordance with, was not adopted exclusively in consequence of any expression of, my wishes, inasmuch as measures tending to this end had been promoted by the officers sent there by my predecessor, and were already in active progress of execution before any communication from me reached California. If the proposed constitution shall, when submitted to Congress, be found to be in compliance with the requisitions of the Constitution of the United States, I carnestly recommend that it may receive the sanction of Congress.

The part of California not included in the proposed State of that name is believed to be uninhabited, except in a settlement of our countrymen in the vicinity of Salt Lake.

A claim has been advanced by the State of Texas to a very large portion of the most populous district of the Territory commonly designated by the name of New Mexico. If the people of New Mexico had formed a plan of a State Government for that Territory as ceded by the treaty of Guadalupe Hidalgo, and had been admitted by Congress as a State, our Constitution would have afforded the means of obtaining an adjustment of the question of boundary with Texas by a judicial decision. At present, however, no judicial tribunal has the power of deciding that question, and it remains for Congress to devise some mode for its adjustment. Meanwhile I submit to Congress the question, whether it would be expedient before such adjustment to establish a territorial government, which, by including the district so claimed, would practically decide the question adversely to the State of Texas, or, by excluding it, would decide it in her favor. In my opinion such a course would be expedient, especially as the people of this Territory still enjoy the benefit and protection of their municipal laws, originally derived from Mexico, and have a military force stationed there to protect them against the Indians. It is undoubtedly true that the property, lives, liberties, and religion of the people of New Mexico, are better protected than they ever

were before the treaty of cession.

Should Congress, when California shall present herself for incorporation into the Union, annex a condition to her admission as a State, affecting her domestic institutions, contrary to the wishes of her people, and even compel her temporarily to comply with it, yet the State could change her Constitution at any time after admission, when to her it should seem expedient. Any attempt to deny to the people of the State the right of self-government in a matter which peculiarly affects themselves, will infallibly be regarded by them as an invasion of their rights; and regarded by them as an invasion of their rights; and Italians. Gen. De Hilliers insists upon leaving and Italians. Gen. De Hilliers insists upon leaving Cooss, John Davis E. B. tion of Independence, they will certainly be sustained by the great mass of the American people. To assert that they are a conquered people, and must, as a State, submit to the will of their conquerers, in this regard, will meet with no cordial response among American freemen. Great numbers of them are na-from members of the Cabinet." tive citizens of the U. States, not inferior to the rest of our countrymen in intelligence and patriotism; and no language of menance to restrain them in the excreise of an undoubted right, substantially guarantied to them by the treaty of cession itself, shall evbers would receive a royal message, proposing the Farrow, Enoch Fentriss, H W er be uttered by me, or encouraged and sustained by oath to be taken to the Constitution, and accepting Fentress, W persons acting under my auhority. It is to be expected that in the residue of the Territory ceded to us by Mexico, the people residing there will, at the The correspondent of the London Times, under

No material inconvenience will result from the imperial highness, by the sublime porte, with regard Gaylord, J A want, for a short period, of a government established to the question of the Polish and Hungarian refugees. by Congress over that part of the Territory which In a former letter, I told you that the Turkish minislies eastward of the new State of California; and the reasons for my opinion that New Mexico will at no those Poles who had been concerned in the late Hun-Great Gray, Churles 2 Groten, J L very distant period ask for admission into the Union, garian insurrection, but that they objected to the exare founded on unofficial information, which I sup-pose is common to all who have cared to make in-key previously to that event, and who were provided

Seeing, then, that the question which now excites such painful sensations in the country will, in the end, certainly be settled by the silent effect of causes independent of the action of Congress, I again submit to your wisdom the policy recommended in my experience in Hungary, are to be expelled, and their countrymen resident in Turkey, who were not concerned in that insurrection, are to remain unmolested. If, however,

REVIEW OF THE WILMINGTON MARKET.

since at 9c. per lb. We quote shoulders, sides, and hams (or hog round) at 71 a 8c. per lb., and dull.

BEEF CATTLE .- The market appears to be nearly, if not quite bare of beef cattle, except what is in one butcher's all low for cash at hands. We learn that a good article of beef would command ready sale at 41 a \$5 per 100 lbs.

COFFEE.-This article has become remarkably scarce. The stock on hand, of any moment, is principally Rio, and chiefly confined to one house. The price has gone up to 16 a 18c. thin poor meat has been sold at 65s per tierce. We do not from store, for Rio, and to 17 a 18c. per lb. for Laguyra .--

CORN .- About 2640 bushels of corn have been received from Bladen county, and from the vicinity of this market-sold at

FLOUR .- The market continues to be well supplied with Fayetteville flour. Prices steady. LARD .- North Carolina lard abundant and dull of sale at 7

a 72c. A lot of some 10 kegs, a prime article, changed hands a few days since at 71c. per lb. HAY .- Sales of North River hay at 65c. per 100 lbs. Store rates 75 a 80c. per 100 lb. Stock heavy.

Liquors.-Whiskey .- Some sales in a small way at 22c LUMBER .- Sales of 4 rafts Scantling and Wide Boards, the first at \$5, the latter at \$7 per M. Sale of I raft quartered

Flooring Boards at \$10 per M. Stock accumulating. Molasses -Received from Havana, 119 hhds. and 22 tierees, and from Cardenas, 269 hhds. and 15 tierces. Some small portion of the first cargo has changed hands at 19c. per gall.

The stock on hand may be considered somewhat heavy. NAVAL STORES .- Since the commencement of the late freshet, the total sales of Turpentine up to the present time, have reached 50,725 bbls. Two fifths at least of this No. of bbls. has been of the hard article. Supposing we are correct, (and we are inclined to believe that we are not far from the mark, for we have taken considerable pains in procuring cerrect information on the subject,) there has been paid out, for the article of Turpentine alone, within the last 17 days, the sum of \$76,087 50. The sales of Tar during the same time, have reached 5,895 bbls., at \$1 10 and \$1 05-amounting to ruary. about \$6,345-being a total sum for Turpentine and Tar, of \$82,432 50. The sales to-day have been made at \$1 85 a \$1 90 for soft, and \$1 10 for hard Turpentine; and \$1 10 for Tar -closing at our highest figure, with some 1100 bbls. or more on the market. It is believed the crop has nearly all been brought to market, at least nearly all that was or is ready to come forward on the present freshet. Spirits Turpentine .-Small sales of this article at 24he.; and 70 bbls. at 25c. per

North county Rosin at 60c. PORK .- Northern mess pork has declined a shade. We now quote at \$12 50 per bbl. The fresh article is selling at the market at from 42 to 51c. per lb. No live hogs on the market. PEAS .- The receipts of Ground Peas begin to diminish, the erop having been nearly exhausted. Prices remain about the

POTATOES .- Irish planting potatoes sell from store at \$2 50 per bbl. Sweet potatoes continue plenty, and sales from carts

and boats at 40 a 50c. per bushel. RICE.-Sale of 400 tierces Rice at \$2 75 a \$3 per 100 lbs. Sales of Rough Rice at 75 a 80c. per bushel. Salt.-None received-selling from store at 25c. per bush-

el, and at \$1 per sack. TIMBER.-Sales of 15 rafts Mill Timber during the week, ranging within quotations, which will be found classified in our table. The stock on hand is large, and sales slow. The Mills are generally supplied, and only buy as occasion may

TRAYED or Stolen, from Cowan's Mill, on the night of the 29th instant, a light grey Mare, about 7 years old; had on a saddle and bridle. Any person returning her, or giving information that may lead to her recovery, at POTTER & KIDDER's office, or to R. A. RIS-LEY, will be suitably rewarded. February 1, 1850
